

A man in a dark suit and striped tie is shown from the chest up, holding his hands out in front of him. In the center of his palms, a glowing white house icon is superimposed over a blue-tinted city skyline. The background is a soft, out-of-focus light.

HOW TO TURN ON VIRTUAL OPEN HOUSE SETTINGS

When activated, the virtual open house system will allow for an open house added to a listing through the DeltaNet to be marked as 'virtual'. A 'virtual' open house required an accompanying URL where said open house can be viewed. Upon adding a virtual open house to a listing, the open house will be displayed on the listing detail page much like a standard open house, but it will indicate that the open house is virtual and include a link to the defined URL.

The same restrictions apply to the entry of a virtual open house as apply to the entry of a conventional open house. Specifically, those that do not have access to attach a standard open house to a listing in the DeltaNet, will not be able to add a virtual open house either.

This setting can be found on the Admin side of the DeltaNet, on the **Preferences > Globals** page.

Scroll down to, and expand, the “Virtual Showing/Open Settings” section, set “Disable Virtual Open Houses” to “No”, and click the “Update Preferences” button.

Once activated, the “This is a virtual open house” checkbox will become available on the listing profile pages on the Admin side (Listings > Listings > [click on listing MLS number]) and in the “Add Open House” section on the Admin side Open Houses > Open Houses page. The additional options to define the virtual open house URL and determine how long the virtual open house link will be visible, will appear automatically when the ‘this is a virtual open house’ box is checked.

DeltaNet listing profile page.

Add New Open House

Enter MLS#

Open Date: Sunday, April 5, 2020

Open Time Start: 2 : 00 PM

Open Time End: 4 : 00 PM

This is a virtual open house Yes

URL: https://example.com

Show the link until the end of the open house day.

Only show the link the day of the open house

Show the link until the end of the open house day.

Only show the link the day of the open house

It is recommended to show streaming (live) links as long as possible to allow customers ask questions ahead of time.

Add Open House

Note: If agents do not have access to add open houses to listing in the DeltaNet, that access can be granted for all agents by going to the Preferences > Globals page on the Admin side, scrolling down to the “Agent Access” section, changing the “Open Houses” setting to “Allow” and clicking the “Save Preference” button. You’ll likely need to log out and back in to see the change take effect.
